

Automated Workflows From Sample To Result

Dr. Marc Meienberger
Associate Global Business Director Automation

QIAGEN - A Focused Market Leader

Revenues and growth

■ Presence	Global
■ Sales 2008	\$900 million
■ # Customer	400.000

Innovation and Employees

■ R&D	\$100 million
■ Patents(1) & Licences	>1.500
■ Products < 3 years old	17%
■ Employees	3'000

(1) Issued and Pending

Presence Around The Globe

Switzerland	=	Automation Center of Excellence
Hamburg	=	Assay Center of Excellence
California	=	Customer satisfaction center
Singapore	=	Customer satisfaction center
26 Subs	=	Direct sales and marketing

Providing Complete Solutions

QIAGEN Competencies

Competencies in research & development

- Chemists & Biologists
- Mechanical & electronic engineers
- Software engineers
- Process integration teams

Competencies in service & support

- Global Application Laboratories
- Field based application specialists
- Field Service Specialists

Major Cornerstones For QIAGEN Automated Systems

Process Safety

Service & Support

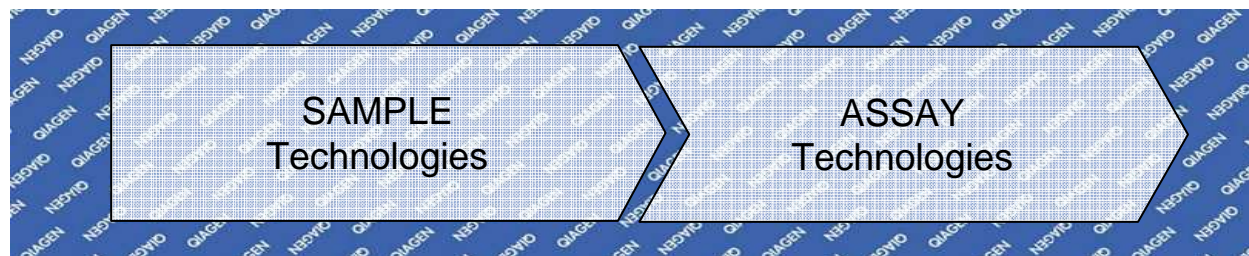

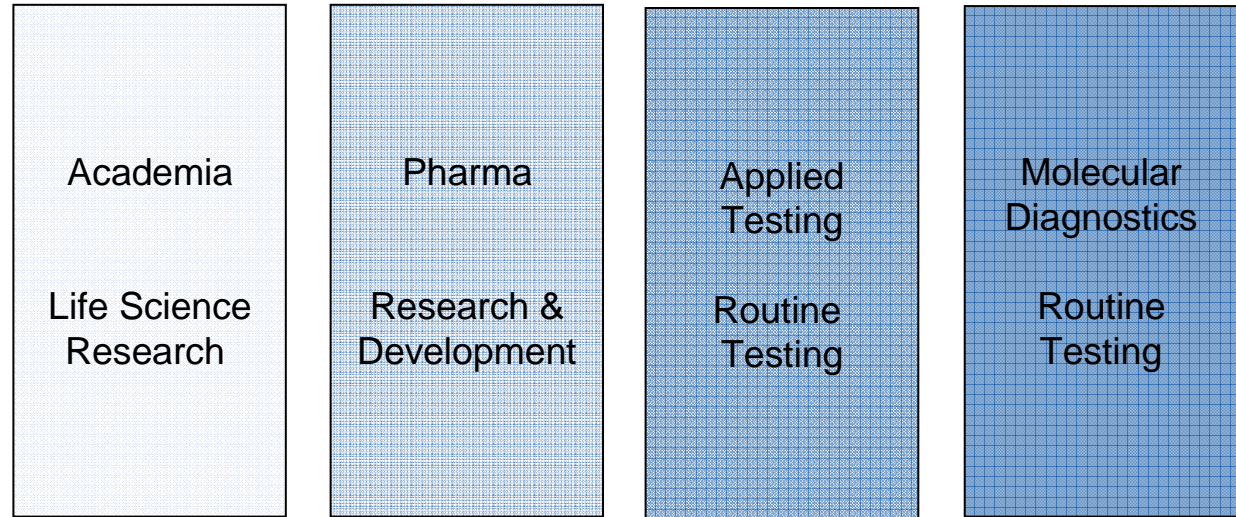

**Flexibility &
Standardization**

Ease of use

Disseminating Technologies Into Four Markets

Product and Technology Continuum

Covering Every Step

Automated Workflows From Sample To Result

Sample disruption

High-throughput

Medium throughput

Low-throughput

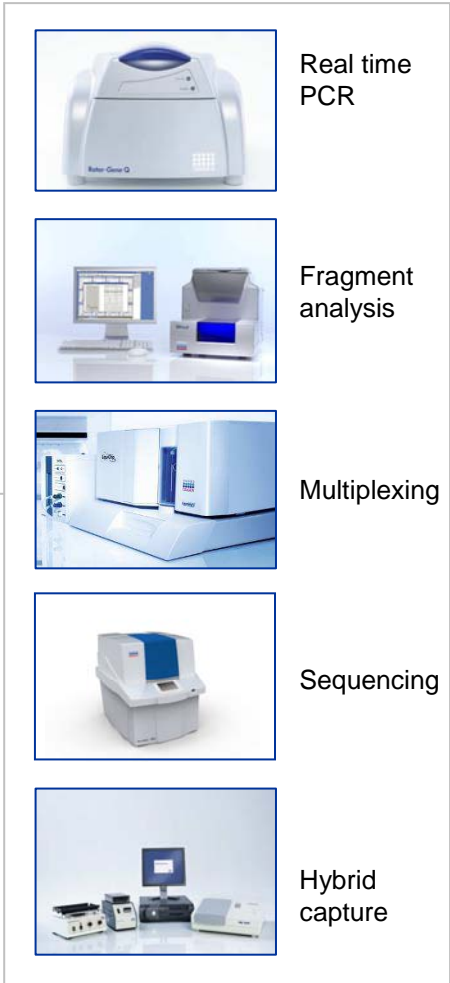

Purification

Assay setup

Detection and analysis

Real time PCR

Fragment analysis

Multiplexing

Sequencing

Hybrid capture

QIAGEN – From Sample To Result

Thank you!
